

# JAUW FY2018 International Fellowship

## Awardees

June 10, 2018

The following is the list of foreign researchers selected through open recruitment under JAUW FY2018 International Fellowship Program. This includes the names of successful candidates, and their research themes during their stay in Japan.

Under this recruitment, 29 applications were received, among which 2 fellowships are to be awarded.

The final result of selection has been notified by e-mail to each applicant. An award letter has been sent by e-mail to each successful candidate. An e-mail to acknowledge the JAUW's receipt of application documents has been sent to each and every applicant by the JAUW International Fellowship Committee. Individual requests for selection results are not accepted

Name	Research Theme
Dr. Dzinun, Hazlini	TiO <sub>2</sub> Photocatalytic Membrane: Different Type of Polymer for Dual Layer Hollow Fiber Membranes Fabrication for Wastewater Treatment Process
Ms. Rathrore, KM Surabhi	Hemodynamic characteristics analysis of blood flow by using fluid-structure interactions---Relevance to Cardiovascular disease

Thank you very much for your cooperation.
